Scalable Quality Solutions

Super Systems has developed a proven process that efficiently manages our time and resources so that we can deliver top talent quickly, typically within 24-48 hours. This saves our clients time and money as costly empty-chair time is kept to a bare minimum. We take a true customer centric approach to delivering a scalable solution that specifically addresses the needs of each client. Super Systems employs in-house technical subject matter experts that are able to evaluate each client requirement and bring a quick and cost-effective solution to the table. With an experienced team and an unparalleled sense of urgency, you can trust Super Systems Inc.

IT Services

We believe that people are your solution. Our IT Services allow you to concentrate on your bottom line, while we focus on the people part.

IT Staff Augmentation

Contract, Contract-to-Hire, and Permanent Placement

IT Managed Projects

Super Systems Inc is able to leverage internal SME's surrounding various IT practice areas to deliver reliable, cost-effective, and tailored managed solutions. Through this approach, our Subject Matter Experts can bring a consultative approach that is not repetitive or cookie cutter. We will assess your situation, deploy the appropriate solution, and maintain your satisfaction throughout the process. Super Systems uses the following 3 phase approach:

Assess	Deploy	Maintain
Scope	PMO	Deliverable
Estimation	Training	Refinements
Project Plan	Execution	Closure
Definition	Risk Management	Maintenance
